CO. PROFILE

Razor-thin margins, pressures to cut costs, shorter lead time for shipments & supply shortages have made it difficult for manufacturers to meet customer's expectations in the garment industry.

Cipotex overcomes these challenges through strict control and monitoring of costs, constant productivity improvements, labour optimization, and creating an efficient supply chain for smooth production. We also use a fully-integrated ERP Cortex system for managing the entire process.

OUR SERVICES:

PRODUCTION:

Cipotex produces knitted clothing in its two factories in Turkey:

| Our factory in Kirklareli is close to the Greek border, allowing us to deliver high volumes of products very quickly.

| *We have a strong reputation and track record for our OTP-On Time Delivery.*

| Our second factory is in Istanbul, the heart of Turkey's textile production industry, where we prepare our specialized and detailed products.

WE CARRY OUT ALL PRODUCTION ACTIVITIES IN OUR OWN FACTORIES.

DESIGN SERVICE

CREATIVITY IS AT THE CENTRE OF THE PRODUCTION PROCESS

Our talented and solution-oriented design team works closely with the R&D department to constantly develop innovative products. The design teams work to differentiate our customers from their competitors with pioneering designs by preparing board presentations with approximately 150 models per season (approximately 600 models in total).

SOURCING

We also organize complimentary non-core production of denim and knitwear clothing. Cipotex incorporates a wide spectrum of suppliers, third-party developers and solution providers, so we can cater to a range of customer's needs out-of-house in addition to in-house.

CO. PROFILE

WHY CIPOTEX ?

SPEED

Cipotex prides itself with its ability to always catch orders on time.

PRICE

By keeping production in-house, Cipotex can guarantee highly competitive prices without compromising on quality, speed or flexibility.

FLEXIBILITY

Cipotex is able to produce and deliver small to medium batch orders in addition to large quantities.

QUALITY

With the help of Cipotex' TQM (Total Quality Management) and MTM (Methods-Time Measurement), every detail in the operation of production is meticulously examined and a work & production plan is made accordingly.

OUR MOST IMPORTANT RESPONSIBILITY IS TO MAKE OUR CUSTOMER'S DREAMS COME TRUE.

CO. PROFILE

SUSTAINABILITY AT CIPOTEX

We strongly believe that we are responsible for our impact on the environment and the welfare of society in general.

We strive to continue to build an eco-friendly, sustainable company by consciously employing a variety of innovative, sustainable practices. Our approach includes 3 main goals: sustainable mill practices, in-house practices, and holding an inventory of eco-friendly fibres. Cipotex prioritizes mill practices to reduce waste, emissions, and water usage thereby limiting our impact on the environment. In addition, we strive to be a green company by:

- | Only using fabrics certified by OEKO-TEX.
- | Recycling Wastewater
- | Only Azo-free dyes and chemicals are used
- | Working with Oeko-Tex (Class-1) certificated dye-houses
- | Applying waste management for paper, plastics, metals, batteries, etc.
- | We ensure that all of our production processes meet Social Compliance as well as the Health and Safety requirements to global standards such as through the strict exclusion of MRSL substances.

WE ARE FULLY TRANSPARENT IN OUR PRODUCTION PROCESS.
